

Freedom And Roam Uganda NEWSLETTER

June 28, 2011

Greetings from Freedom and Roam Uganda (FARUG)! Our organization strives for the attainment of full equal rights of lesbians, bisexuals, transgender and intersexual (LBTI) women as well the removal of all forms of discrimination based on sexual orientation. We work to empower, lobby and press for the recognition of same sex relationships, especially for lesbians in Uganda and thereby allow them to attain full equal rights and freedom in all aspects of life.

Computer Fundraising

Freedom and Roam has been having problems with computers. The computers that the organization had were worn out, old, and few in number. This slowed the work of the staff at the organization making the important work that the office does more difficult. So at the beginning of this year, we had to find ways in which to solve this problem at the organization. While FARUG was limited in funding, the Director and Board Chair of FARUG worked to find organizations that would be willing to donate funding to the organization.

In May 2011 a smile came on our faces when we received good news from Val that a lesbian organization in Denmark, FEMALE OXYGEN, was doing fundraising to raise money for FARUG to buy computers. The money raised from the fundraising party was sent and as you receive this newsletter, we have brand new computers at the organization and everything is moving on well. We appreciate FEMALE OXYGEN and their generosity and support towards FARUG in our struggle for the liberation of the LBTI community in Uganda and also towards realizing our Goal and Mission.

Please enjoy the following pictures taken at the party!
